

# Birjis Khatoon

---

## OBJECTIVE

I am seeking a role as an Angular Developer where I can leverage three years of experience to contribute to the development and maintenance of innovative web applications. Proficient in translating UI/UX designs into functional code and integrating external APIs, with a focus on ensuring optimal application performance and user satisfaction.

## EXPERIENCE

### ETL TESTER - CBA (COMMONWEALTH BANK OF AUSTRALIA)

Nov 2020 - Dec 2021

As an ETL Tester at Commonwealth Bank of Australia, I was responsible for testing ETL processes to ensure data integrity and accuracy.

### ANGULAR DEVELOPER - 20FFICE

Feb 2022 - Jun 2023

As an Angular Developer at 20FFICE, I developed two UIs for the Office project. I contributed to both interim and final design development stages. Additionally, I conducted UI testing using the Katalon Testing tool and managed support mailers and tickets to enhance user experience and resolve issues promptly.

### ANGULAR DEVELOPER - SRU (SEAT ROSTERING UNIT)

Jun 2023 - Sep 2023

Contributed to the UI development of the SRU project, focusing on enhancing user experience and interface functionality.

### ANGULAR DEVELOPER - HOLIDAY HOMES

Sep 2023 - Apr 2024

As an Angular Developer at Holiday Homes, I focused on front-end development and assisted designers in creating UI designs. Additionally, I played a key role in configuring URLs for seamless navigation.
